

ICE
Energy Club

The logo features the letters 'ICE' in a large, bold font. The 'I' and 'E' are black, while the 'C' is a vibrant yellow. Below 'ICE', the words 'Energy Club' are written in a blue, sans-serif font. The entire logo is centered on a white background, which is framed by a thick blue border. Two vertical orange lines with blue rectangular caps at the top and bottom are positioned on either side of the logo.

affiliate of  THE INTERNATIONAL
CENTER FOR ENERGY
Economy | Energy | Environment | Empowerment

This block contains the affiliation information. It starts with the text 'affiliate of' in a small, grey font. To its right is a smaller version of the 'ICE' logo, where the 'C' is yellow and the 'I' and 'E' are black. Further right, the text 'THE INTERNATIONAL CENTER FOR ENERGY' is stacked in a small, black, sans-serif font. At the bottom of this block, the words 'Economy | Energy | Environment | Empowerment' are listed, separated by vertical bars.

What we do

ICE Energy Club is an association of distinguished thought leaders, forward-thinking professionals, and dynamic solution providers committed to redefining the future of energy especially within the complex realities of emerging economies. We unite decision-makers, governments, diplomatic circles, industries, financial institutions, civil society, and academia, around one common mission: *promoting a just and inclusive energy transition.*

At *ICE Energy Club*, we believe energy is not just a commodity, it is the foundation for economic transformation, social stability, and environmental resilience. We envision a world where the energy transition is not only global but inclusive, where Africa and other emerging regions are not passive beneficiaries of external solutions, but active provider and co-creator of sustainable futures.

Our Strategic Priorities :

- Promote Impartial & Informed Dialogue
Convene policymakers, corporate leaders, and experts to address critical energy challenges, ensuring balanced perspectives and actionable

insights. To this end, we facilitate diplomatic and cross-border discussions to align energy transition strategies with climate goals. Ice Energy club has become notable for Host high-impact summits, closed-door roundtables, and track-II diplomacy dialogues to bridge gaps between stakeholders, foster public-private partnerships to accelerate clean energy deployment and just transition frameworks

- Capacity Development & Empowerment:
Through our affiliate; ICE Energy Learning School (ICE-els) We offer training programs, fellowships, and workshops to develop expertise in energy governance, innovation, and sustainable finance. In this regard, we empower the next generation of energy leaders through mentorship and knowledge-sharing.
- Disseminate Interdisciplinary Research
with our team of specialists and industry expert, we produce data-driven analysis on energy markets, climate policy, and emerging technologies (e.g., renewable, hydrogen, carbon capture). In demonstration of our commitment to research , we publish reports, policy briefs, and scenario modeling to inform decision-makers.

Our Approach

ICE Energy Club approach is to accelerate, transform and promote energy dialogue across Africa and the globe by delivering regionally tailored, forward-thinking solutions that address the unique challenges and opportunities within the oil, gas, and electricity value chains. As a subsidiary of the International Center for Energy, we serve as a vital platform for innovation, strategic collaboration, and capacity building empowering governments, industry stakeholders, and communities to achieve resilient, efficient, and sustainable energy ecosystems.

Our mission is to bridge expertise with action by mobilizing a global network of energy consultants and thought leaders who are committed to shaping inclusive and impactful policies, infrastructure, and development programs. Through multi-stakeholder engagement, evidence-based research, and high-level dialogue, ICE Energy Club fosters pragmatic solutions that advance economic integration, environmental stewardship, and long-term energy security. We are driven by a deep commitment to integrity, independence, collaboration, and measurable impact in every region we serve.

Our Parent Firm

ICE Energy Club is an offshoot of the International Center for Energy (ICE) which provides regionally tailored solutions designed to inspire and propel governments and organizations towards sustained innovation and efficiency in their energy ecosystems covering the Oil, Gas and Electricity & Maritime value chains.

With a presence across Africa and energy sectors globally, ICE mobilizes expert energy consultants who are proven leaders in strategic development, implementation, sustainability and capacity building. Together we are dedicated to transforming the energy infrastructure of Sub-Saharan Africa, driving reform and tangible development, and offering vital expertise to overcome deeply endemic challenges.

The International Center for Energy (ICE) is a global brand, championing impactful projects, strategic advocacy, and targeted capacity development. With a strong focus on Africa and the Caribbean, ICE leads the charge in delivering innovative, relevant solutions that promote environmental sustainability, economic resilience, and social equity within the energy sector. Anchored in the United Nations Sustainable Development Goals, Affordable and Clean Energy and Climate Action, ICE is at the forefront of the global transition to cleaner, more inclusive energy systems.

We work to reduce dependence on fossil fuels and hydrocarbons, advocating for climate-conscious policies and implementing scalable projects that foster renewable energy adoption, efficiency, and carbon reduction.

Membership

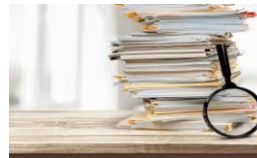

Membership to the ICE Energy Club is strictly by invitation or recommendation by two existing members of the club.

Categories of members are as follows:

- Corporate members
- Individual members
- Diplomatic members

Activities at a glance

Research & Publications

Dialogue & Convening

Training & Capacity Building

Fellowship Programs

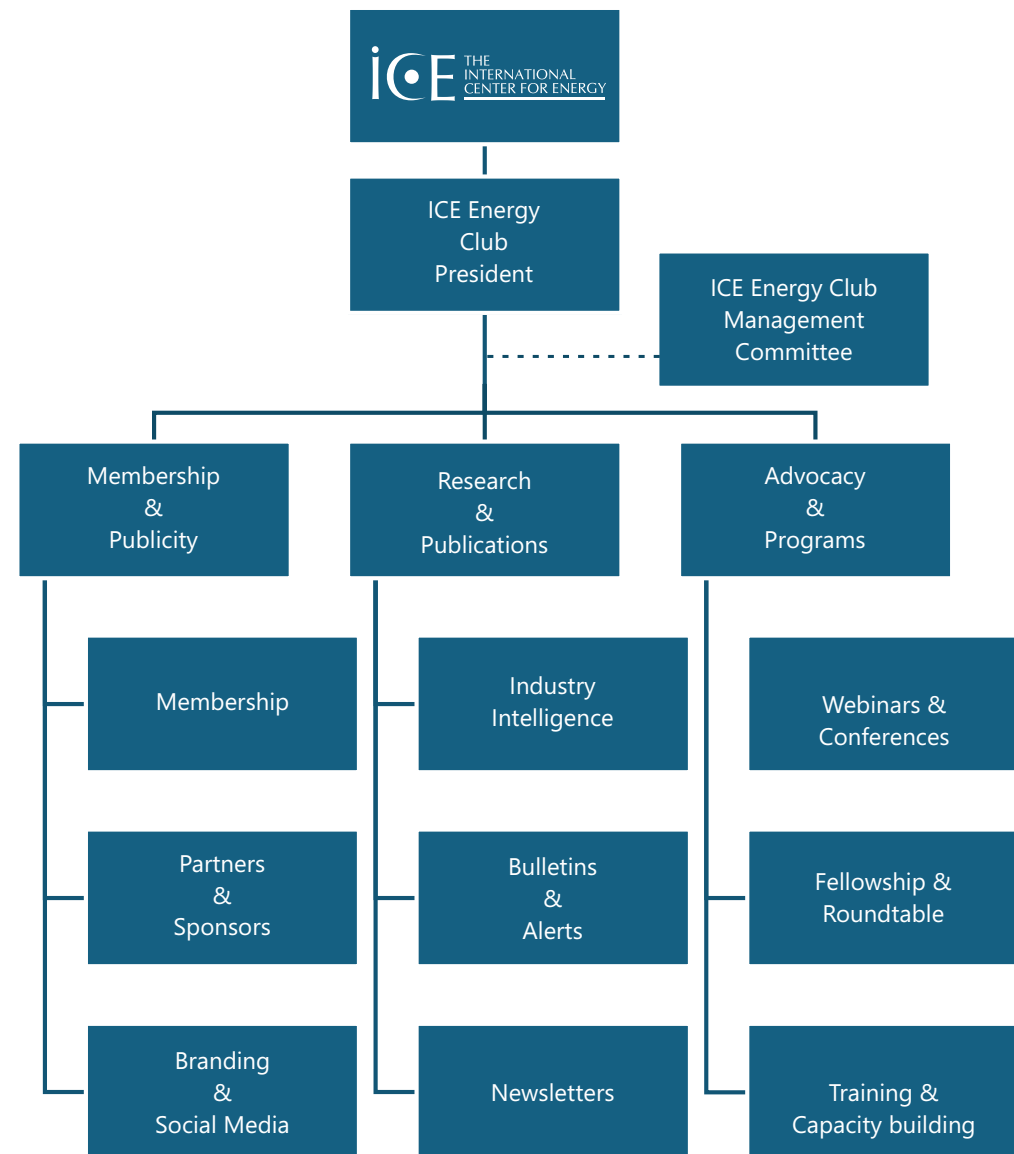

Annual Global Energy Futures Conference

How we operate

The ICE Energy Club operates through a dynamic structure designed to foster collaborations, efficiency and meaningful change within the energy eco system. Our staff members are grouped into specialized teams, each focused on critical aspects of the energy industry, from research and innovation to sustainability projects.
